## **HEY ZUCKERBERG..!! :**

This event provides a brief experience about placement procedure and gives you a great knowledge which is helpful to get hired for your dream position.

## **PROCEDURE**

This event includes three rounds.

### **First round:**

- A written test on Aptitude, Reasoning and basic level Programming.

### **Second round:**

- A group discussion.

### **Third round:**

- The shortlisted candidates from GD will face the technical interview.

**Fourth round:**

- The selected candidates from technical interview will face the HR round.

**RULES**

- Individual participation is allowed.
- The duration of each round is 30 minutes.
- Best will be awarded.

**Intelligent; :**

This event creates a platform to show your coding and testing skills.

This event includes three rounds,

**First round:**

- A screening test about programming languages.

**Second round:**

- A code debugging session.

**Third round:**

- Design and development of a program.

**RULES**

- A team of maximum 3 are allowed.
- The best teams will be awarded.

## Web Weaving:

This event includes two rounds,

### **First round:**

- A screening test about several web technologies.

### **Second round:**

- A front end web page development.

**(Resources will be provided if any.)**

## **RULES**

- Participants are supposed to design Webpages using front end languages like HTML, CSS and BOOTSTRAP etc...
- A team of maximum two is allowed.
- Best teams are awarded.

## Mind Fizz:

This event enhances your approach of problem solving in better and faster way.

This event includes two rounds,

### **First round:**

- Questionnaire regarding important and trending technologies based on computer science domain, General abilities, General Knowledge.

### **Second round:**

- Top 10 teams of first round should answer series of questions based on several domains like logos, captions etc.

### **Third round:**

- A buzzer round for the top two teams to decide the winner (surprise questions)

#### **First round:**

- Screening test to shorten the number of participants, questions based on basic ciphers like shift, affine etc.

#### **Second round:**

- Participants are asked to decrypt several ciphers which are introduced on the spot

#### **Third round:**

- Participants are asked to code the given encryption system.
- Best will be awarded.

### **Techie:**

This event provides a platform to express about your innovative model and creates an open debate environment so as to enhance your model.

This event includes,

- Presentation of their innovative models and explain in-detail about his/her model (Similar to ted talks).
- Best will be awarded.

## “Age of Information” Expo:

This event includes,

- An exhibition of several technologies.

## Contest:

Several contests like,

- An open contest of photography.
- Mystery solving game like a treasure hunt.

## “The Algorithmist”:

This is an online coding contest conducted before cynosure event.

This event includes 3 questions,

- 1<sup>st</sup> question is awarded with 20 marks.
- 2<sup>nd</sup> question is awarded with 30 marks.
- 3<sup>rd</sup> question is awarded with 50 marks.

Best will be awarded.

A link related to this contest will be updated soon in the cynosure website mentioned above.

## Fun games:

Cynosure provides several fun games and spot events.

(Cynosure, Fun for Sure :P)

## **How to apply for events**

Interested students should submit their papers, in the IEEE format. For each paper, there should not be more than two authors. The abstract of

the paper should be submitted through email to the  
“svucynasure2k18@gmail.com”.

**K**indly enroll your names at the time of registration to participate in this  
magnificent event.
